Independent reflection in professional study 1 and 2
Module codes 7HEP1049 (15 credits) and 7HEP1050 (30 credits) at level 7

The 15 credit course runs over 1 semester and the 30 credit course runs over 1 or 2 semesters. They run in either semester A or B.

These courses are designed for therapeutic or diagnostic radiographers, dietitians, paramedics and physiotherapists who want to reflect on an aspect of their day to day, expert professional practice. There are no specific days when you are required to attend the University. Communication is with your supervisor and arranged to suit your needs.

Course aims
The aims of these courses are to enable you to consolidate and enhance your clinical effectiveness through the analysis of evidence whilst facilitating reflection on an area of professional practice.

Content
In these courses you are expected to provide evidence of evaluated professional practice by exploring, reflecting upon and developing the learning achieved through your day to day activities in an area of your professional practice. This learning gained from your professional activities will form the basis from which you will gain academic credit. Your learning will be facilitated by a profession-specific supervisor drawn from the academic team at the university.

Assessment
The assessment and the number of elements depend on your area of study. You will negotiate the assessment of the course in conjunction with your supervisor in order to meet the course learning outcomes.

Who teaches this course?
These work-based courses are facilitated by academic staff with experience in this area. University tutor support and individual tutorials will be available throughout the period of study.

Cost
The fee for new self-funding students is £680.00 for 15 credits and £1360.00 for 30 credits. Please note that the fee may vary depending on your source of funding and whether you are a returning student. To find out information about the fees visit go.herts.ac.uk/cpdfees

These modules can be studied together with the following courses:
- Independent reflection in professional practice 1 or 2
- Independent work based skills 1, 2 and 3
If you are not sure which is the most suitable option we will be happy to advise you. The flow chart attached will help in informing your selection.

Please ensure you return the topic outline with your application form

The course forms part of a broader CPD framework that can lead to the award of Postgraduate Certificate, Postgraduate Diploma or Master’s degree

NB 15 credit modules are normally completed over one semester except the work based skills modules and 30 credits are normally completed over two semesters but can be completed over one semester (please note that this is 300 student effort hours)
Topic / area of interest

What do you want to get out of this module / what are your aims (brief outline)

Please return this topic outline with your application form.
Which independent study module do I need? A decision making algorithm

The following algorithm may help in determining which of the independent study modules is the most appropriate for you. You can select all of these modules to study in succession or just select one that is of particular interest. There is no predetermined set order however if you intend to study all then the IPS is often a useful starting point.

1. Do I want a module where my learning is based on improving my theoretical knowledge and understanding and applying this to my practice?
   - yes
     - Independent Professional Study.
   - no

2. Do I want a module that enables me to improve a specific area of clinical skill or develop a new set of skills with the support of a mentor in the workplace?
   - yes
     - Independent Work Based skills
   - no

3. Have I developed a new service or area of practice and want a module to enable me to reflect on the development/outcomes of that change or development?
   - yes
     - Independent Reflection on Professional Practice
