Theory and clinical applications of gynaecological ultrasound

Module code: 7HSK0090  30 Credits at level 7

This course runs in combination with other modules during the weeks beginning:

- Monday 2nd October 2017
- Monday 13th November 2017
- Monday 11th December 2017
- Monday 5th February 2018
- Monday 5th March 2018
- Monday 23rd April 2018
- Monday 18th June 2018
- OSCE week – Monday 2nd July 2018

This course is for radiographers, midwives and nurses for health care professionals who are involved in the performance and reporting of female pelvic ultrasound examinations. The course is taken in combination with Application of Ultrasound Science and Principles of Reporting in order to achieve an ultrasound qualification. It may only be studied as a standalone course by qualified sonographers.

Course aims

The aim of the course is to give you:

- In depth of knowledge and critical understanding of anatomy, physiology and pathology of the female pelvis.
- A comprehensive understanding of techniques applicable to the medical ultrasound investigation of the female pelvis.
- Critical awareness in synthesizing information and evaluative skills for the competent performance of ultrasound examinations of the female pelvis.
- Technical expertise in vascular being able to perform examinations competently with precision and effectiveness and be able to adapt these skills as required in complex situations.

Content

This course is designed to give you the theoretical background of gynaecological ultrasound imaging. It also helps you to achieve clinical competency when you take this course as part of a taught post graduate programme.

Active participation in group activities is a requirement of participants.

Assessment

The assessment will consist of a case study presentation, an unseen 2 hour OSCE and a practical skills assessment comprising of 3 patients including both transabdominal and transvaginal approaches. The practical skills assessment is undertaken in your own department and marked by university staff and your clinical supervisors.

Who teaches this course?

The course is facilitated by Naomi Brown and involves both University and external lecturers. Classes take place at College Lane Campus, Hatfield.

Cost

The fee for new self-funding students is £1,410.00.

Please note that the fee may vary depending on your source of funding and whether you are a returning student. To find out information about the fees visit go.herts.ac.uk/cpdfees

The course forms part of a broader CPD framework that can lead to the award of Postgraduate Certificate, Postgraduate Diploma or Master's degree
