Multiplanar anatomy and pathology for imaging

Course code: 7AHP1041  
Semester: B  
Level: 7  
Credit: 15

Who should attend the course?  
The course is for health professionals with an interest in studying the multi-planar anatomy and pathology of the body as revealed by cross-sectional imaging methods such as CT and MRI.

This course would be suitable to those working in medical imaging, oncology and related fields.

Course aims  
To enhance knowledge and understanding of the multi-planar anatomy and pathology of the body.

Course content  
There is inclusion of the brain, spinal cord, peripheral nerves, heart and respiratory organs, vasculature, lymphatics, skeleton and surrounding musculature.

The pathology follows on to include homeostasis and factors affecting its balance, infection, inflammation and autoimmune conditions, degenerative change, neoplasia, metabolic disorders, vascular disease, congenital abnormalities and trauma.

How does this course map the NHS KSF?  
The course contributes to the development of knowledge and understanding for the KSF Core Dimensions 2, 4, 5, Health and Well Being 7h, Information and Knowledge 9c.

Assessment  
Written assessment – coursework 3,000 words or equivalent. It includes formative online self-testing activities.

Where is the course taught and by whom?  
This is a distance learning course which uses a variety of electronic resources and tasks, virtual classroom sessions and independent study.

Computer equipment requirement  
Delivery of the course incorporates blended learning which aims to combine e-learning activities with campus based learning. You therefore need to have access to a suitable personal computer and a good reliable Internet connection (broadband recommended). Most modern PCs or Macs (less than 3 years old) should be suitable. If you have any queries or need any additional support with IT skills, the School employs an e-learning technologist who will be pleased to help and advise you.

Cost  
To find out information about the fees visit go.herts.ac.uk/cpdfees

Contract funding for NHS staff  
The University is contracted by the NHS to provide post-registration education/CPD and training for its health professionals. If you are an NHS employee contact the senior manager responsible for post-registration education/CPD in your Trust to check if the course you wish to attend can be supported by the Trust's contract with our University.

When does this course run?  
The course requires 150 hours and starts in February 2013.
