Department of Allied Health Professions and Midwifery

Image recognition: Brain (CT) 7HSK0100 15 Credits at level 7

This course runs over 6 days: 20th & 21st February 2018 - 27th, 28th & 29th March 2018 15th May 2018

This course is for health care professionals working in CT or those that have an interest in CT imaging of the brain. The course can be taken as a standalone course or as part of a postgraduate award. If you take this course as part of a postgraduate award you need to be a qualified radiographer and have a degree or equivalent.

Course aims
The aim of this course is to enable students to enhance their knowledge of the anatomy including normal variants and a range of pathological and traumatic processes which affect the cranium and its content. It will also enhance their awareness and recognition of changes in appearance of CT brain images.

Content
The course will provide an overview of the pathophysiological processes that affect the cranium, with particular emphasis on radiographic appearance. Students will develop critical awareness of patient presentation which may influence the radiographic appearance. Taught content will provide an emphasis on the radiographic appearances of normal and common conditions that present within the cranium.

This will be facilitated by blended learning initiatives which will enable the student to enhance their learning within the clinical environment.

Assessment
Assessment will typically include a practical assessment and a presentation.

Who teaches this course?
Delivery of this course will be by academic staff from a range of disciplines in addition to healthcare professionals currently employed within the NHS, many of whom are consultant radiologists. A variety of teaching sessions will be utilized to account for differing learning styles.

Cost
The fee for new self-funding students is £680.00. Please note that the fee may vary depending on your source of funding and whether you are a returning student. To find out information about the fees visit go.herts.ac.uk/cpdfees.

The course forms part of a broader CPD framework that can lead to the award of Postgraduate Certificate, Postgraduate Diploma or Master's degree.
