

Welcome to our “Future of Astrophysics Special” Open Night

Science Learning Centre (main building)

Talks

19:15 Dr. Marc Sarzi: Future Telescopes - a Kid’s Quiz
20:00 Dr. Marc Sarzi: The next Century of Astrophysics
20:45 Dr. Marc Sarzi: Future Telescopes - a Kid’s Quiz
21:30 Dr. Marc Sarzi: The next Century of Astrophysics

HD Planetarium: shows at 6:05, 6:25, 6:45, 7:05 till 10:05. Go upstairs and grab a ticket !!!

Inflatable planetarium: just queue downstairs, more tailored to kids

Labs: IR camera, Make your Own Gaia satellite and SKA array, Modeling Clay Exoplanets

Computer Activities: The LIGO Black-Hole Hunter Game, the JWST space telescope game

Observatory (outside -- follow map on the back)

Take a short 5min walk to the telescopes, following on the illuminated path (see map at the back)

Telescopes & their targets:

Hough Telescope	M31
Kitchin Telescope	M1
Video Imaging Telescope	Moon
Robert Priddey Telescope	Netpune

Patrick Moore Rotunda: Radio Astronomy Show (every 20 min)

Hertfordshire Astronomy Group: Telescope Display and Observations
