

The University is committed to cutting our carbon footprint. One of the ways is for all of us to cut the number of car journeys we make alone to and from the University. Follow this leaflet and find out how to plan your journey more sustainably!

Our travel plan

The Travel Plan was implemented in 2003, and since then, the University is constantly working with staff, students, residents and the local council to provide better public transport and other more sustainable ways to travel to the University.

Parking at the University

For students...

Campus parking for students is limited to certain people (if you have a disability for example).

For staff...

Staff must have an official parking permit. Permits are available at the student centre on the College Lane Campus.

For more staff parking information please visit our 'car parking' section on staffnet.

For visitors...

If you're coming to the University, the person you're visiting will arrange a day permit for you. Applicants attending a School Open Day or

Interview Day will receive a parking permit for use at the park and ride.

Residential students

There is no parking for residential students living on de Havilland Campus (except students who hold a blue badge for a personal disability) and it is part of the accommodation contract that students will not bring a car to the University or Hatfield. Residential students will not be allowed to park over night in the University's Park & Ride facility.

For further details contact: parkinginfo@herts.ac.uk

For queries about parking permits, contact: parkingpermits@herts.ac.uk

Park and ride

During term time, the University runs a park-and-ride service for staff and students. It is operated between 07.00 and 22.00, with shuttles running every five to seven minutes during peak hours. At present there is a small charge for the Park and Ride shuttle which can be purchased on the day at the ticket machines provided. **Scan the QR code for timetables.**

On your bike

We're committed to promoting a healthy campus, where cycling and walking is widely encouraged.

We have partnered with Halfords Cycle2work to offer savings to staff and students on the cost of a new bike and accessories.
