

Alumnus of the Week

Name: Muhammed Saho

Year of Completion: 2015

Programme of Study: BA (Hons) Business and Computer Systems

Job Title: Software Developer

Employer: Document Centrics Solutions Ltd.

What you liked about Hertfordshire Business School?

The Hertfordshire Business School is a fantastic learning environment, with well-equipped tutors and resources. Looking back at my experience now I can see how much I have grown, and became more ambitious. I use to think that once I graduate from university, I would join the real world of work and that will be it for the rest of my life. But I now realize that I am just at the beginning of the rest of my life and I am just excited to just live it.

What you do in your job?

As a software developer my main roles and responsibilities involves creating and maintain web and desktop applications. The role requires constant communication with the consumer, making small frequent releases at a time.

Whom you would like to connect with in the Alumni Network?

I have no specific preference, I would welcome the opportunity to connect with anyone past and present within the UH Alumni Network.
