

Welcome to this Bayfordbury “Art & Astronomy” Special Evening

Science Learning Centre (main building)

Movies & Plays (upstairs auditorium)

18:15 Projection of the UH-produced movie: “Starry Messenger”. Presented by Dr. Bob Chapman
19:00 Enactment of the play: “Silent Sky”. By students at The New Theatre of the Univ. of Nottingham
19:45 Projection of the UH-produced movie: “Starry Messenger”. Presented by Dr. Bob Chapman
21:15 Enactment of the play: “Silent Sky”. By students at The New Theatre of the Univ. of Nottingham

Art Galleries

Downstairs: Angeles Munoz’s “A matter of Beauty”. Upstairs: John Pinfield “Exoplanets”

Music (in the cafeteria or by the domes, depending on weather conditions)

20:30 Live “Science Raps” performance by Rapper & Science Communicator Jonathan Chase

Planetarium & Labs

Upstairs: HD Planetarium, every 20min starting at 6:05 (grab a ticket). Downstairs: Inflatable Planetarium (simply queue). Upstairs labs: IR camera, Schmidt Plates, Herts Astronomy, Spirograph!

Observatory (outside – take the shuttle or follow map on the back)

Telescopes & their targets:

There are seven telescopes that - weather permitting - will be pointing at Planets (Jupiter), Nebulae (the M42 Orion Nebula), Stellar Clusters (globular M13/15, open clusters M35/45) and Galaxies (the Cigar galaxy and Andromeda).

If the weather is poor do not hesitate to ask the telescope operators about these objects!

Patrick Moore Rotunda: Radio Astronomy Talk (approximately every 20 min)!
