

User pathway: Collage

Using Collage to Develop
Distributed Leadership:

A User Pathway

User Pathway: Collage

An Introduction

This is one in a series of User Pathways which have been created to help support you in your use of the ENABLES project website and resources. This User Pathway is designed to introduce you to the concept of **distributed leadership** and how **collage** can be used as a way of developing distributed leadership capacity.

The User Pathway is envisaged as a set of stepping stones. Along the pathway, you will be guided towards a series of helpful resources, which are available as documents to download and / or in audio-visual formats to watch and listen to.

You will have the chance to orientate yourself on the ENABLES website, before moving on to explore the resources on distributed leadership and the use of collage as an arts-based and embodied approach to leadership development. It's probably easiest to just keep this document open and use the hyperlinks to find your way around.

We suggest where to start, but the pathway is ultimately yours to navigate. We hope you enjoy your virtual journey on this User Pathway! Do check out other User Pathways in the series.
