Male Genital Dermatology and Oral Dermatology

Who should attend this course?
The course will be of interest to:

- Consultants, SAS doctors and specialist registrars working in dermatology, sexual health and urology
- General Practitioners, GPwSIs, practice nurses, nurse practitioners
- Health care professionals working in men’s health
- Dentists

Course aims
In response to requests from a broad range of health care professionals, the School of Postgraduate Medicine is delighted to once again be offering a one day short course for health care professionals keen to know more about male genital dermatology and oral dermatology.

The teaching programme has been designed to meet the requirements for basic training for specialist registrars working in dermatology and sexual health but will also be of interest to experienced clinicians, specialist nurses, GPs and GPwSIs. The content will be delivered by well-known health care professionals working in these clinical areas, including Dr Will Porter, Chair of the newly formed British Society for Male Genital Dermatology and Dr Jane Setterfield, an expert in oral medicine.

Delegates are welcome to attend the one day course alone, but may like to also register for the short course entitled Vulval disorders: the fundamentals which is being held at the same venue on 4th and 5th March (see separate flyer).

How does the course map with the NHS KSF?
The course contributes to the development of knowledge and understanding for the KSF Core Dimensions.

Where is the course taught and by whom?
College Lane Campus in Hatfield

Computer equipment requirement
Delivery of the course incorporates blended learning which aims to combine e-learning activities with campus based learning. You therefore need to have access to a suitable personal computer and a good reliable Internet connection (broadband recommended). Most modern PCs or Macs (less than 3 years old) should be suitable. If you have any queries or need any additional support with IT skills, the School employs an e-learning technologist who will be pleased to help and advise you.

Cost
£150 (special price for the three days in March £375)

Contract funding for NHS staff
The University is contracted by the NHS to provide post-registration education/CPD and training for its health professionals. If you are an NHS employee contact the senior manager responsible for post-registration education/CPD in your Trust to check if the course you wish to attend can be supported by the Trust's contract with our University.

When does this course run?
- 6th March 2014 (vulval Disorders March 4th and 5th 2014)
