

Welcome to Bayfordbury, this is your ticket for this evening – *all timings approximate*

Science Learning Centre (main building – activities upstairs)

Talks

Rockets – 6.00 & 8.15pm

Starry Messenger at 6:45 & 7:15 pm

Planetarium (every 15 mins)

Activities – Time Snail, Toys, Schmidt plates, Computer astronomy, Hertford Astronomy Group

Downstairs in the café, food & refreshments are available.

Observatory

The minibus leaves the SLC for the telescopes approximately every 15 mins or you may walk the 5 mins to the telescopes staying on the path and avoiding the minibus. There is a range of equipment available for guided use. The main telescopes are pointing as follows:

Jupite	Video Imaging Telescope (36cm)
M34 Open Cluster	Kitchin Telescope (36cm)
Ring Nebula	Marsh Telescope (50cm)
Jupiter	14 inch
M15 Globular Cluster	Ian Nicolson Telescope (40cm)
Beta Cygni Double Star	Meade

There is a demonstration of the radio telescope in the Patrick Moore building (rotunda building)
