## Fees and Finance Policy

### 2023/24

(Academic Year – 1<sup>st</sup> August 2023 to 31<sup>st</sup> July 2024)

## 1 INTRODUCTION

The purpose of this document is to outline details of our tuition fee policy for all students studying in the 2023/24 academic year. This policy is updated annually to reflect revisions in institutional policy agreed by the University's Board of Governors and amendments to fee levels. The detailed policy set out in this document is agreed by the University's Fees and Bursary Committee.

The University sets its fees in line with government policies and submits a return each year to the Office for Students (<https://www.officeforstudents.org.uk/>) to help promote fair access to higher education.

Going to university is a big decision and a great investment in your future. It is also a big financial investment, so it is important to be aware of the cost of tuition and other essential rules such as when fees must be paid, or when you might be entitled to a refund.

All students are personally liable for the payment of their fees relating to their studies unless your offer letter expressly informs you otherwise. If payment is to be made by a third party, i.e. Student Finance England (or an equivalent funding body), employer or other sponsor, or by a parent or guardian, then it is the responsibility of the student to ensure this is arranged before any payments are due.

The University can provide advice and support if things go wrong or if students get into financial difficulties; our contact details and other useful information can be found at the end of this document.

The Hertfordshire Students' Union also provides impartial advice and support to our students regarding financial matters.

References to "University" (and "UH") throughout this document are to the University of Hertfordshire.

## 2 FEE INFORMATION

### 2.1 Calculating tuition fees

Tuition fees are payable for each year of a student's course. The level of tuition fee payable by a student will depend on:

*Residential status*; whether a student is a Home or international fee payer, the definition of which can be found at [www.ukcisa.org.uk](http://www.ukcisa.org.uk). Students are assessed for Home fees status during the admissions process. The fee status will normally stay with the student for the remainder of their course and is not transferable between individuals.

*Course of study*; each course has an agreed fee. The University sets its fees annually in line with government policies and guidelines and these are included within this policy. Some courses attract a higher fee and are classified as non-standard in this policy.

*Mode of study*; part time and Online Provision<sup>1</sup> courses attract a different fee which reflects the different way in which these courses are taught.

*Attendance*; the fee amount a student will pay may be reduced if they withdraw, suspend or defer their studies before the 100% fee liability point. The reduction in the fee will be based on the date of the change in relation to the University fee liability dates, for which see Section 2.4 below.

*Start date*; the fee payable will depend on the year that a student starts their studies. The fees quoted in this policy are correct for 2023/24, but please see Section 2.7 below for information about when fees might change for subsequent years.

The fee payable by a student for 2023/24 will be included with their **Offer** (the University's formal offer of a place) and/or the Notification of Fees email sent to students shortly after registration.

---

<sup>1</sup> Online Provision refers to the University courses which at the time of initial application by the student are advertised as being an online course, which means that they are designed to be delivered, taught and assessed via web-based learning. Online Provision does not refer to any programme which was intended to be campus based and due to circumstances has been amended to be delivered wholly or partly online.

## 2.2 Residential status

The assessment to decide whether a student will be classed as a Home or an International fee payer will depend on numerous factors such as:

- nationality
- immigration status in the UK<sup>2</sup>
- where a student has been living
- what the student has been doing for the three years prior to the start of their course

Assessments of fee status are carried out during the admissions process and take into account the circumstances of each applicant. If the University is unable to determine the residential status of an applicant a questionnaire will be sent to the applicant requesting additional information.

Once fee status has been assessed it is not usually possible for this to be changed. If a student starts a **new** course, then the fee status will be re-assessed if circumstances have changed since the start of the original course.

## 2.3 Other tuition related costs

The University tries to keep any additional costs to a minimum. However, some courses do attract additional costs for activities such as field trips. Students are advised about any additional costs in the **About your course** factsheet which is sent to all applicants with their **Offer**. This factsheet details these costs and whether they are a mandatory or optional part of the course.

## 2.4 Fee liability dates

Students (with the exception of Online Provision Students – please see Section 7 below) become liable for each year's tuition fees in three **incremental** stages during the course of their year of study. The dates are dependent on the Semester they begin their studies and whether they have been assessed as a home or international fee payer. The dates are outlined below.

Student starting in Semester A	Home Amount Due	International Amount due
Prior to 9 <sup>th</sup> October 2023	No fee liability	No fee liability
9 <sup>th</sup> October 2023	25% of tuition fees	65% of tuition fees
8 <sup>th</sup> January 2024	50% of tuition fees	100% of tuition fees
15 <sup>th</sup> April 2024	100% of tuition fees	n/a

<sup>2</sup> The Government has confirmed that EU students commencing study from 2021/22 onwards will no longer be able to access the same financial arrangements as Home students. They will no longer be entitled to home fee status or financial support from Student Finance England. Any EU students that commenced their studies prior to 1<sup>st</sup> January 2021, are excluded from this change and will retain their existing fee package for the duration of their course. However, there may be circumstances where the fee package will not be retained if a student transfers onto another course or changes their mode of study. Students are advised to check with Student Funding and Financial Support before making any changes. Further information and support regarding this change can be found from UKCISA.

Student starting in Semester B	Home Amount Due	International Amount due
Prior to 5 <sup>th</sup> February 2024	No fee liability	No fee liability
5 <sup>th</sup> February 2024	25% of tuition fees	65% of tuition fees
6 <sup>th</sup> May 2024	50% of tuition fees	100% of tuition fees
5 <sup>th</sup> August 2024	100% of tuition fees	n/a
Student starting in Semester C	Home Amount Due	International Amount due
Prior to 27 <sup>th</sup> May 2024	No fee liability	No fee liability
27 <sup>th</sup> May 2024	25% of tuition fees	65% of tuition fees
23 <sup>rd</sup> September 2024	50% of tuition fees	100% of tuition fees
6 <sup>th</sup> January 2025	100% of tuition fees	n/a

The fee liability dates for international students set out in the table above apply only to those international students who commenced their programme of study on or after the 2022/2023 academic year. Any international students who commenced their programme of study before the 2022/2023 academic year will remain on the same fee liability dates as applied when they commenced their studies.

The University acknowledges that some international students from certain overseas countries may face difficulties and delays in transferring money to the UK due to challenges with foreign exchange arrangements within their home countries. Any student who is able to provide clear documentary evidence that they are facing such challenges, as a result of foreign exchange issues beyond their control, may be permitted to defer payments, following an application to the Student Finance Team. All decisions regarding the deferral of payments shall remain at the discretion of the Student Finance Team.

## 2.5 Payment of tuition fees

Eligible undergraduate students who have applied for a Tuition Fee Loan will have their fees paid directly to the University by the Student Finance England (or an equivalent funding body). For all other students, tuition fees must be paid in line with the liability dates outlined in Section 2.4 above.

Eligible postgraduate students who have applied for a Postgraduate Loan from Student Finance England (or an equivalent funding body) should contact Student Account Management [student-finance@herts.ac.uk](mailto:student-finance@herts.ac.uk) to discuss payment options.

If an employer or other sponsor is paying the tuition fees the student will need to provide a completed and signed sponsor form prior to or at enrolment. **The student, unless your offer letter expressly informs you otherwise, will be liable for the fees if they do not provide the form or if the sponsor does not pay the fees.** The sponsor form can be found at <https://www.herts.ac.uk/study/fees-and-funding/fee-information/when-to-pay-tuition-fees/sponsored-fees>

Fees can be paid online, by banker's draft, credit card or debit card (GBP sterling). For details of how

to pay, <https://www.herts.ac.uk/study/fees-and-funding/payments>

## 2.6 Sanctions for non-payment of tuition fees

The University provides information, advice and support to students who find themselves in financial difficulty or have had their funding delayed. Further details can be found at <https://ask.herts.ac.uk/financial-support>

Independent advice can also be found from the Hertfordshire Students' Union. The University strongly encourages any student unable to pay their tuition fees to contact the University's Student Finance team to discuss a payment plan or alternative sources of funding, contact details can be found under Section 11 below.

However, if a student has not paid the applicable instalment of their tuition fees within 28 days of the liability date, or has not made alternative arrangements which are acceptable to the University, the University may (without affecting any other right or remedy available to it) do one or more of the following:-

- (i) withdraw the facilities of StudyNet and Canvas, which will prevent the student from accessing study materials, submitting assignments or registering for award ceremonies
- (ii) withdraw the student from their course
- (iii) bar the student from registering to study in future years
- (iv) bar the student from attending their graduation ceremony
- (v) refuse to provide results or confer a University award
- (vi) not examine research students and require them to leave the research programme
- (vii) decline to arrange, supervise, or validate placements

In addition to points 1-7 above, students on a Student Route visa may face the following sanctions:

- (viii) withdrawal of student route sponsorship
- (ix) no issue of a CAS or visa letter in support of any future visa application
- (x) refuse to report successful completion of an eligible programme in support of an application for a Graduate Route visa

The University may also take more formal steps to recover any unpaid tuition fees, such as engaging a debt collection agency and/or commencing legal proceedings. If it does so, the University reserves the right to require the student to pay, in addition, any costs and expenses (including legal costs) reasonably incurred by the University in recovering the unpaid sums. The University also reserves the right to charge the student interest on the unpaid sums on a daily basis at an annual interest rate of 2% above the base lending rate of HSBC Bank plc until all outstanding sums and interest are paid.

The University will withhold examination results from students in debt, but may issue such results in non-standard format to enable students to undertake any referred/deferred assessment. The University will not normally bar the student from attending resit examinations, provided that arrangements have been made with Student Finance to pay the fee or other debt.

Any sanctions will be lifted as soon as the student's debt has been cleared in full.

Students who have withdrawn or applied to suspend their studies will still be contacted to pay any outstanding debt. Students will not be entitled to resume their studies or register to study a new

course until all outstanding debt has been cleared in full.

Please refer to the University policy and regulations SA13 'Schedule of Sanctions and Penalties' and SA14 'Student Withdrawal Regulations', [www.herts.ac.uk/about-us/corporate-governance/uprs](http://www.herts.ac.uk/about-us/corporate-governance/uprs)

## 2.7 When tuition fees change

The fees contained in this document are those that have been set for the 2023/24 academic year.

Please note that the fees set for future academic years may be higher. The University will determine fees in accordance with the following:

- Tuition fees are fixed for the duration of the course at the amounts contained in this document and will not therefore be subject to annual increases. Except for,
  - New students, or current students<sup>1</sup> who start a new course or change their mode of study (full time or part time), the fees for their first academic year will be as published by the University at the relevant time.
- For current students<sup>1</sup> who remain on the same course and mode of study (part time or full time) there will be no increase in fees.
- The amount that the University is allowed to charge is regulated by the government. At the time of writing, for the 2023/24 academic year, the maximum annual amount for students who started their courses on or after 1 September 2012 is £9,250 for full-time students and £6,935 for part-time students. Please note this excludes accelerated degree courses (See Section 5.2). Changes may be made to tuition fee policy in subsequent years, particularly following governmental changes such as the review of post-18 education.
- Please also note that VAT is not currently charged on tuition fees. If in future the University is required to charge VAT (or some other tax) on tuition fees, this amount will be added to fees in addition to any of the increases referred to above.

## 2.8 When there is a material change to a course or a course is discontinued

In accordance with Office for Students' requirements, the University has developed a **Student Protection Plan** <https://www.herts.ac.uk/study/your-offer-package> which aims to minimise the impact on students of any material change or discontinuance of a course.

The University may sometimes make changes to a course, or occasionally even discontinue a course, in the circumstances outlined in its **Key Facts** document (which can be found on its website at <https://www.herts.ac.uk/study/your-offer-package> and which is also sent to students with their **Offer**). The Key Facts document is re-issued every year and, upon re-registration, you agree to accept its terms and conditions. Any material changes will be made clear to you in advance of them taking place.

If a student is not happy with a change to a course (which may include the discontinuation of an individual module), the student may choose to leave the course, in which case the student will need to complete a Withdrawal Form as outlined in Section 2.9 below. The student's fee liability (which may include an entitlement to a partial refund – students are asked to refer to the **Student Refund** e

**and Compensation Policy**) will then normally be calculated in the same way as in Section 2.9, i.e. the fee will be based on the date of receipt of the Withdrawal Form in comparison to the fee liability date. However, in the unlikely event of a change (or module discontinuation) that is likely to have a serious adverse effect on the student (for example, by prejudicing their future choice of career), the University will consider their fee liability on a case-by-case basis.

---

<sup>1</sup> "current student" means a student who was registered with the University prior to the 2023/24 academic year and is continuing their studies at the University during 2023/24.

If a student's course is discontinued before they have completed their course (i.e. so that the student is not "taught out"), and if none of the alternative arrangements offered by the University are acceptable to the student, the University will refund the student's fees for their final year (or part year) of study on the course.

## 2.9 Implications for students who withdraw, defer or suspend their studies.

Students will be liable for their tuition fees for the entire year of study unless they formally notify the University that they wish to withdraw, defer, or apply for a suspension of their studies.

Withdrawing from a course is a big decision and students are advised to seek as much advice as possible before taking this step, further details can be found at <https://ask.herts.ac.uk/withdrawing-from-university>. International students should also see Section 2.10.4 below.

The fee liability will be calculated from the date of the receipt by the University of the Withdrawal Form. For example, a Home student who started their course in Semester A and withdraws on the 17<sup>th</sup> October 2023 will be liable for 25% of their 2023/24 fees. A student will be entitled to a partial refund, if a payment has been made that is greater than the revised liability amount following withdrawal. Using this same example, a student whose first year fee is £9,250, and who has paid £5,000 at the point of withdrawal, would be entitled to a refund of £2,687.50 For example, £9,250 x 25% = £2,312.50; £5,000 - £2,312.50 = £2,687.50.

The University will contact students who are entitled to a refund within 28 days of receiving the completed Withdrawal Form. International students who withdraw from their course early will have any non-refundable element deducted from the amount of refund (see Section 2.10.3 below).

Where fees have been paid by way of tuition fee loan, the University will contact Student Finance England (or an equivalent funding body) to advise them of the change which will also impact on the student's maintenance entitlement.

Where fees have been paid by a sponsor, e.g. employer, the University will charge the sponsor a fee for the year based on the fee liability dates.

If a student requests to suspend their studies and then subsequently resumes their studies, the fee liability would also be in line with the liability dates in Section 2.4 above. For example, if a student commences study in 2023/24, "rests" after the 1<sup>st</sup> liability date, they will pay 25% of their 2023/24 fee. If they recommence in the academic year 2024/25 and study the full year, then they will be liable for 100% of the 2024/25.

Students that have had their studies suspended by the university and are subsequently allowed to return to study, will need to seek advice from their Student Records Administrator as to what process they should follow to re-register and enrol on the correct modules. They may need to submit a request for a deferral of their modules that they would have studied, had they not been suspended. This can

be done via the Exceptional Circumstances process and if the application is successful, will ensure that the student is not charged for repeated modules when they return from suspension. The remainder of the course will be charged in line with fee liability until 100% of the course fee is charged. If deferrals are not granted, the charges will be calculated in line with the policy as stated in 2.9.

## 2.10 Additional information for international students

### 2.10.1 Payment of the Deposit

A compulsory deposit of **£5,000** (which is offset against the first year tuition fee payable) is required from all students who require student visa sponsorship to study in the UK.

A deposit is **not** required from such students who have:

- Financial sponsorship for payment of their fees (written evidence will be required), or
- An approved Federal Loan (US students only)

Payment options for the deposit can be found at,

<https://www.herts.ac.uk/international/new-international-students/scholarships-and-fees/how-to-pay/fee-payment-methods> The deposit must be paid by the date indicated in the student's **Offer**. By paying the deposit, the student agrees to be bound by the University's terms and conditions which are outlined in the **Offer** and its accompanying documents including the **Key Facts** document. The Key Facts document is re-issued every year and upon re-registration, you agree to accept its terms and conditions. Any material changes will be made clear to you in advance of them taking place.

The tuition fee deposit consists of a non-refundable element of £2,500, should the student fail to register with the University. A minimum of £2,500 is non-refundable in all circumstances unless:

(i) the student registers at the University and subsequently withdraws before the first liability point:

for Semester A students, this is 9<sup>th</sup> October 2023; and

for Semester B students, this is 5<sup>th</sup> February 2024;

in which case they will be charged according to the date of withdrawal.; or

(ii) a student's visa to study within the United Kingdom is refused prior to a student's enrolment; or

(iii) the student fails to satisfy the academic or financial conditions set by the University; or

(iv) student cancels their contract within 14 calendar days of accepting the offer.

In these specific circumstances, the full fee paid will be refunded.

If the student's visa is refused, a refund will only be made if they have supplied the University with appropriate documentary evidence of the refusal by the Home Office.

A full £5,000 deposit will be retained (in all circumstances) if fraudulent documentation has been submitted or false representations made as part of a student's visa application or application to the University. Any student rejected for fraudulent conduct by way of false documents or false representations (including but not limited to any rejection under paragraph 9.7.1-9.7.4 of the UK

Immigration Rules) will **not be eligible for a deposit refund. In this instance, the University has the right to retain the full £5,000 tuition fee deposit. Fraudulent conduct includes using false representations to enter the UK to study and subsequently seeking asylum or switching to an alternative visa once in the UK.**

### 2.10.2 Full payment discount

The University offers a Full Payment Discount of £500 (per academic year of study) to international students studying a full-time course, who pay their tuition fees in **full** by:

- 9<sup>th</sup> October 2023 for Semester A entry
- 5<sup>th</sup> February 2024 for Semester B entry

Funds must have been received by the University, cleared, and include any outstanding fees for Pre-Sessional/Preparatory courses. Students who pay by the three instalments option will **not** be eligible for the Full Payment Discount of £500.

International research students must pay their tuition fees in full within 30 calendar days of their date of enrolment, and in subsequent years the anniversary of that date, to be eligible for the £500 Full Payment Discount.

The following courses are not eligible for the £500 Full Payment Discount,

- Pre-Sessional courses
- Half year preparatory courses
- Online Provision courses

For students that withdraw (both student & university initiated); the full payment discount will be withdrawn in full.

### 2.10.3 Refunds

Any refunds made to international students will be returned to the original source i.e. the country and the account from which the money was sent. This is to comply with money laundering guidelines <http://www.legislation.gov.uk/ukxi/2007/2157/contents/made>.

If the full tuition fees are sent, the £500 Full Payment Discount will be returned to the source as described above.

### 2.10.4 When circumstances change

The University will inform the Home Office of any change to the student's study via the Home Office student management system (SMS) which may mean that the student will need to leave the UK. Advice and support is provided by the Student Immigration Team (Advice & Compliance), whose contact details are included in Section 11 below.

All fee liability as described above is subject to a student's statutory right to change their mind about studying at the University within a period of **14 calendar days** starting on the day after they accepted the University's offer, as set out in the **Key Facts** document.

### **2.10.5 Students studying at Hertfordshire International College (HIC)**

The University will inform the Home Office of any change to the student's study via the Home Office student management system (SMS) which may mean that the student will need to leave the UK. Advice and support is provided by the International Student Support team, whose contact details are included in Section 11 below.

### **2.11 Accredited Prior Learning**

The University will charge students in the following way for prior learning,

- Accredited prior experiential learning (APEL) will be charged at 50% of the course or modular fee.
- Accredited prior credited learning (APCL) will not be charged.

Please note – APCL is typically where an individual has gained University credits at a different institution and then transfer to the University of Hertfordshire. Whereas, APEL is where an individual's work experience would make them exempt from having to undertake certain modules on a programme.

## 6.2 Bench Fees

Where bench fees are applicable, details will be made available with the *Offer* documentation.

## 6.3 International research students based in their home country (distance-based)

International students studying in their home country for the duration of their research degree registration, i.e. not based at UH, may register and pay the distance-based fee. Distance registration must be approved by the Research Degrees Board prior to the issuing of an offer letter. Students registering on this basis are normally expected to spend one third of the duration of their programme of study at the University and attend relevant researcher development training sessions in the University. Those based overseas must also pay for supervisor travel and subsistence costs outside the UK (if applicable). Should an international student based overseas subsequently continue their study in the UK, they must pay the appropriate international fee or a pro-rata fee for periods spent at UH, as appropriate. Such periods of study in the UK would be subject to the UK Government's visa entry requirements. International students studying on professional doctorate programmes will pay the fee applicable to their particular programme.

## 6.4 Fee Paying Periods for Research Degrees

Research students can enrol at the beginning of each month and fees are charged for the year from their enrolment date. Fees are charged annually until the student formally submits to Academic Services for final examination.

## 6.5 Payment in full discount

International students who pay their own fees, in full, within 30 days of the date of enrolment (or anniversary of date of enrolment for returning students), are entitled to a £500 'payment in full' discount.

## 6.6 Minimum fees to pay

The minimum period of enrolment/registration for a research award for which fees must be paid is normally one year (full-time)/two years (part-time) prior to submission.

## 6.7 Fees where the Student Changes Mode of Study during the Year (full time or part time)

A research student who changes mode of study (full time or part time) at any time in the year will pay a pro rata fee based on the full-time or part-time fee and date of change.

## 6.8 Writing-up fees for former research students (Schedule A only)

Research students submitting for examination for MPhil or PhD, who have paid full-time fees for a minimum of three consecutive years or part-time fees for a minimum of six consecutive years will be allowed one term (normally a four month period) free of charge after the completion of their registration. Thereafter they are liable for one-third of the part-time fee per four calendar months, for the duration of their registration i.e. until the student formally submits to the Doctoral College.

Research students registered on any other research degree programme or schedule are not eligible for writing-up fees.

### **6.9 Post viva examination fees**

Following viva examinations, research students will receive written notification from the Doctoral College of the deadline by which they must formally submit amendments/revisions to the Doctoral College. No additional fees will be charged for this period if the student submits within this deadline. Thereafter, the student is liable for one third of the part-time rate per 4 calendar months, that passes after the deadline, until the student formally submits the amendments/revisions to the Doctoral College.

### **6.10 Higher Doctorate**

Fees for the award of Higher Doctorates (LLD; DLitt; DMus, DSc) £6,350

To be paid in two instalments:

- Initial instalment to be paid on enrolment £2,350
- Second instalment to be paid at the examination stage £4000

### **6.11 International students studying part-time in the UK**

International students wishing to register for a part-time research degree based in the UK throughout the duration of their registration should contact Student Records and Enrolment ([sre@herts.ac.uk](mailto:sre@herts.ac.uk)) for a status check prior to the issuing of an offer letter.

Research degree fees may rise in future years in line with inflation.

## 9 STAFF MEMBERS - UH, ASSOCIATE COLLEGES AND UH SUBSIDIARIES

### 9.1 UH & UK partner staff

There is a full remission of fees for staff undertaking part-time courses of study. This covers individuals employed with one year's continuous service by the University. The remission of fees does not however apply to students of the University who may be employed in any capacity by the University. The fee remission is subject to conditions as detailed at

[https://herts365.sharepoint.com/sites/Pensions-and-benefits/Shared%20Documents/Fee\\_Waiver\\_policy.pdf#search=fee%20waiver](https://herts365.sharepoint.com/sites/Pensions-and-benefits/Shared%20Documents/Fee_Waiver_policy.pdf#search=fee%20waiver)

## 10 ADDITIONAL INFORMATION

### 10.1 Repeat Students: Examinations and Tuition Fees

Students are not required to re-register for resits, provided all resits take place in the same academic year. The published tuition fee covers the first set of resit assessments in 2023/24, therefore no extra fee is due for these. Students who are required to retake an assessment(s) after the first set of resits must re-register for that module and pay an additional fee for that module at the applicable rate set out in section 4 and 5 above. Students will be charged the lowest applicable module fee.

Where a student is referred in an industrial placement, or teaching practice, and needs academic supervision and assessment to repeat that placement or practice, the University will charge an appropriate fee agreed by the University. There may be an assessment fee in addition to the module fee, to reflect the cost to the University of organising visits to the student.

Students who repeat more than one year of study and are funded by Student Finance England (or an equivalent funding body) will need to check their future funding entitlement before committing to resume their studies.

### 10.2 Taking a Variable Number of Modules

Modular fees are based on the standard 15-credit module, and the amounts below relate to students on standard courses. An undergraduate student taking more than 75 credits in the year is full-time for fees purposes. A postgraduate student taking more than 120 credits in the year is full-time for fees purposes.

Where a student studies a deferred module(s), this module does not count towards any fee liability under the above rules; provided that the student has fully paid the fee for the deferred module. “Deferred” means a module with formal deferred status awarded by the Examinations Board.

A full-time student who withdraws from one or more modules cannot receive a fee refund if, after withdrawing from that module(s), the student is still defined as “full-time” under the provisions of [UPR AS14 Structure and Assessment Regulations – Undergraduate and Taught Postgraduate Programmes](#) (over 75 credit points for a 2 semester year (Undergraduate) or 120 credit points for a 3 Semester year (Postgraduate)).

### 10.3 Full-Time student taking Additional Modules

Where a full-time student is required, or advised, by the University to take an additional module(s), over and above the standard academic requirements for the course, the University will not normally charge a fee for the module(s).

This does not apply to part time students who pay their tuition fees per module studied.

### 10.4 Full time student taking fewer than the Standard Number of Modules

The following table applies to students registered on full-time courses but who take fewer modules than normal in a year (for example, if they 'split' their final or take a reduced number of modules)

Type of student	Number of standard 15 credit modules taken in year	Status for fee purposes
Undergraduate	Up to & including 75 credits	Part-time module fee payable (home or international rate as applicable)
Undergraduate	Above 75 credits	Full-time fee payable
Postgraduate	Up to & including 120 credits	Part-time module fee payable UK or international rate, as applicable
Postgraduate	Above 135 credits	Full-time fee

### 10.5 Student Changes Mode of Study (full time or part time) during the Year

A student who changes from a full-time to a part-time course from one academic year to another will pay a total fee for the year based on the module count.

A student who changes from a full-time to a part-time course during an academic year will pay their full time fee in line with the liability dates detailed in Section 2.4 above (all students except Online Provision) or Section 7.4 for Online Provision students. Any subsequent study will be charged at the part time rate and any subsequent change to study will be liable to charge as in Section 2.4 above.

A student who changes from a part-time to a full-time course, at any time in the year will pay a total fee for the year based on the module count (UPR AS14 refers).

A research student who changes mode of study (full time or part time) at any time in the year will pay a pro rata fee based on the full-time and part-time fee and date of change.

Current students who change their mode of study (full time or part time) will lose their existing fees package and will be liable for the fee package applicable to 'new' students in 2023/24 as described in this document.

## 10.6 Student wants to “Split” the Year

A student who wants to extend their studies, in the final year, beyond the normal duration of the course (known as taking a “split year”), may impact on their funding eligibility with Student Finance England (or an equivalent funding body). Students should check their eligibility with Student Finance England before making any changes and contact the University’s Student Funding and Financial Support team for advice. If you would like to discuss your eligibility for funding, please contact the Ask Herts Hub and ask to speak to a member of the Student Funding and Financial Support team who can discuss eligibility or related queries with you. Alternatively, you can call +44 (0) 1707 28 4800 or email [funding@herts.ac.uk](mailto:funding@herts.ac.uk).

## 10.7 Deferred Students

Students that defer their course start date to the following or subsequent year will pay the appropriate fee for their year of entry, not the fee quoted in their offer from their original application.

Students who suspend their studies will need to pay the relevant tuition fee liability for that academic year. If that student returns to study, they will be charged for any repeated modules and the remainder of their course in line with fee liability.

Any student who is enrolled on a ‘deferred module’ that was recommended from a previous academic year, will not be charged for those deferred modules again but would be required to pay for the remainder of their course fee up to 100% of the original cost, within the academic year they return. The course fee will only be charged once.

Students that go dormant, retain their fee package and will be charged the appropriate fee in line with their original year of entry.

## 10.8 Degree Apprenticeships

Apprentices are not usually liable for any tuition fees on an apprenticeship programme. To be eligible to study an Apprenticeship, an apprentice must be employed, and their employer willing to fund them, for the duration of the programme via [Education and Skills Funding Agency \(ESFA\)](#).

The funding permissible will depend on the circumstances of the specific learner and this will be detailed in the formal agreements that will have been completed by both the Employer and learner. For further information regarding the funding for Higher and Degree Apprenticeships at the University of Hertfordshire please contact [degree-apprenticeships@herts.ac.uk](mailto:degree-apprenticeships@herts.ac.uk).

**Possible impact on funding:** Student Finance England (SFE) do not fund degree apprenticeships. However, although SFE do not provide funding for Degree Apprenticeships, they do apply “previous study” and “equivalent level qualification (ELQ)” rules. As such, it is possible that, any attendance on an apprenticeship programme, even for just one day (and whether a student gains an exit qualification or not from their apprenticeship programme), may impact future SFE eligibility if a student decides to subsequently switch to a standard degree course. For further information on this, please see SFE’s eligibility criteria at: <https://www.gov.uk/student-finance/who-qualifies>
