University of Hertfordshire UH

King's *Award*

The University of Hertfordshire has been honoured with a King's Award for Enterprise for its highly effective internationalisation strategy.

Considered the country's highest business accolade and approved by both the Prime Minister and The King, the University was recognised for its excellence in international trade, winning the King's Award for International Trade for Outstanding Continuous Growth in overseas sales over the last six years.

The only university to be awarded a King's Award for Enterprise in 2024, Herts was recognised for how it has developed and grown its internationalisation strategy, which has resulted in a booming international community at its Hertfordshire campus, and an extensive overseas partner network delivering the University's education.
