

## First Day Checklist

Your first days at the University of Hertfordshire will be full of new and exciting experiences! Use this checklist to make sure you don't forget anything.

### Make yourself known

Get to know the people around you, whether you're living with them or just studying alongside them. Impressions you make on your first day are long-lasting and the people you meet may turn out to be lifelong friends.

### Need to catch a bus?

Make sure you pick up your UH Wristband when you collect your key, or head to the Student Centre in the Hutton Hub to pick one up at any time - the wristband shows everyone you are a UH student, even if you haven't collected your ID card at your Registration session. It will give you access to the student discount on Uno Busses and get you onto the free Shuttle Bus between campuses.

Remember, this wristband will NOT get you access to the Freshers' events, the Freshers' Wristband needs to be purchased separately by visiting the Hertfordshire Students' Union website.

### Get to know your surroundings

You'll be spending a lot of time on campus so be sure to take a walk around campus and learn what's on offer close to you.

Don't forget, you can download the Herts Mobile App from your App Store which includes Wayfinding, the quick and easy way to find your way around campus.

### Speak to your friends and family

Whether you post on your favourite social media site, call or text, it's important to get in contact with your friends and family - they're probably wondering how your first day was. Contact them and let them know how you're getting on, this will put their minds at ease.

Don't forget to #GoHerts when sharing online so you can see what everyone else is up to at Herts!

### Relax

Whether you stay in your room, head home, head to your common room or visit the Forum or EleHouse make sure you relax after your first day - after all, it is the first of many!
